REGINA, December 19th, 1892.

Haultain's railway assessment bill was passed in committee of whole on Saturday by a good majority in spite of energetic and persistent lobbying. Right of way and ground, stations, freight sheds, dining halls, elevators and section houses taxable; rest of superstructure exempt. Manitoba Northwestern exempt for 20 years if 150 be built in five years.

WINNIPEG, December 19.

Plot discovered to kill President Hypoliti, of Panama.

Sensational revelations in Panama Canal affairs at Paris.

Blain's condition is alarming, and death is expected at any hour.

James Slavin was hanged at Cornwall for the murder of Capt. Davey.

R. S. Mowat, Ogilvie's agent at Elkhorn, was held up by robbers and relieved of \$700.

Henry Vaughan, who stabbed George Randall at Melita, has been rearrested and committed for trial.

There was a collision on the Great Northern near St. Paul on Sunday morning in which seven were killed and many injured.

The Electric railway company, Winnipeg won a big suit with the Horse Car company and the city now has the right to electric service.

LOCAL.

D. C. ROBERTSON, left by Tuesday's train.

CAYLEY's executive committee has resigned.

JUDGE ROULEAU arrived from Calgary on Friday night.

The Calgary Fire brigade held one of their assemblies last Friday.

C. H. ROYAL, brother of Dr. Royal, has been called to the bar of Manitoba.

THE skating rink will be opened to-morrow with the band in attendance.

BOTH Alex. Lucas and N. J. Lindsey, M. D., will stand for mayor of Calgary.

THERE is just about the same amount of snow in Calgary as there is in town here.

Taylor is Winnipeg's next mayor, Callaway and Wilkes having retired from the contest.

R. F. SHAW left by train on Saturday morning for Ottawa, and will return towards spring.

JAS. HAMILTON ROSS was unanimously re-elected speaker of the North West Assembly.

THE Calgary Tribune did not issue last Thursday. It was removing to its new quarters.

W. R. LINDSEY, of Calgary, arrived by last train, and intends to open up an implement warehouse.

THE Edmonton season has started at last. Sleigh driving and dancing going on nearly every night.

THE bridge at Rat Creek, that had a hole in it is now fixed that horses will not be apt to put their feet through it.

A PARTY of four left for Egg Lake last week to sink shafts for the purpose of ascertaining about the oil in that district.

THE Forresters are to have a ball on the 26th inst., and there seems to be prospects of another dance the following week.

TRAIN arrived on Friday night instead of Thursday. It was detained on account of the heavy fall of snow toward McLeod.

MAJOR GENERAL St. Geo. Stewart White has been appointed Commander in Chief of the British forces in India to succeed Lord Frederick Roberts.

"JIM," the prisoner, who claimed to have killed policeman Steadman, has retracted the confession he made to save the neck of Buck Olsen, his pal.

IT MAY be as well to bring the matter of "bells" before the public again, and at the same time inform them that they are liable to be fined if found driving sleighs without them.

C. A. MAGRATH, of Lethbridge, is in receipt of a telegram from the minister of public works asking him to survey the site for a new Court and Customs house and forward levels etc., to that Department.

SUPREME COURT sat both on Friday and Saturday on the case of Crown vs. Vezina. All the evidence has been heard. The argument will be heard this afternoon. Crown pros., N. D. Beck; S. S. & H. C. Taylor for defendant.

THE Dundee Courier, Scotland, of November 22nd, contained an article on "Canada for the Farm Servant." It gives a very interesting account of the trip taken by Mr. P. Fleming, a Scotch immigration agent, who was up here a few months ago, describing the people and places he visited. The following is an extract:

A GYMNASIUM meeting was held last Thursday with a very poor attendance, about twenty names were handed in as members to form the club. Other names were put on a list to be asked to join by the present members. Members fee \$2. Active members \$4. The old Methodist church will probably be rented for use as a gymnasium. Another meeting will be held next Tuesday to appoint officers.

HORSES are very often left out in the street to stand without blankets or without any covering, which must be very hard on them. Most places would not allow such cruelty to animals. The other day a horse was tied up to a telegraph post for five consecutive hours, while the owner was in one of the hotels, and would have stopped longer had a kind friend of the owner not put it in the stable.

The Calgary Herald has a two-column editorial trying to justify Cayley and his executive for the appointment of three immigration agents, for the Northwest from Calgary. Among its remarks is "Mr. Reily was probably paid his expences, and there is little doubt that he is out of pocket as a result of the commission." Edmonton citizens may know this is very like Mr. Reily.

EDMONTON BRICK COMPANY.

Have purchased their Brick Machinery to be shipped at once, the machinery is of the latest improved make and will turn out the finest kind of pressed brick, the brick will be considerably larger in size than the usual brick so the purchaser may count on the saving of one thousand in every ten, also less time and labor required. The price will be \$10.00 per thousand delivered inside the city limits in large quantities. We will have brick ready for sale about the 1st of May next. Any person requiring brick early it would be to their advantage to give their orders as soon as possible. We guarantee our brick 1st class and to fill all orders after May 1st next.

MESSRS LITTLE & MALONEY,
PROPRIETORS.

BRICK! BRICK! YES BRICK.

Having attained the reputation of making the best brick in the Territories I will make it a point to continue to lead in that line; while thanking the building community of Edmonton and vicinity for their kind patronage in the past would invite their inspection of my roving in the future. Do not be deluded by parties who claim to make a pressed brick with a sand stock machine, or produce them in May in this country; it cannot be done. Pressed brick sold in the cities of Canada and the Eastern states for \$20.00 and upward per thousand and can't be sold or made here for any \$10.00. I set up no claim to such liberality, but can produce a good brick in July for \$8.00; August, \$7.00, September, \$6.00, and in large quantities. Parties requiring brick late or early in the season will find it to their advantage to examine what they are buying, before placing their orders.

The last issue of the Lethbridge News contained a notice to the effect that the proprietor, Mr. E. T. Saunders contemplated closing down the business at the end of the year. It is, we understand, Mr. Saunders' intention to remove his plant to the north, probably to Edmonton, where he will commence the publication of a new journal. While regretting the circumstances that necessitate the change, we heartily wish Mr. Saunders every success in his new venture—McLeod Gazette.

With a heavy influx of skilled artisans, clerks and book-keepers into the Canadian Northwest, many like the Courier correspondent would be greatly disappointed. This new and comparatively undeveloped country requires only so many of such settlers, and that the number of skilled artisans has not greatly exceeded the demand is plain, from the fact that such men get paid \$3 to \$5 a day. But with a deluge of skilled labor these prices could not long be maintained. A supply greatly in excess would here as elsewhere reduce wages of such men below the present fairly remunerative figures.

MURDER AT MELITA, MANITOBA.

It appears that there had been a dispute between a man named Vaughan and the Randall brothers, who are brothers-in-law and near neighbors, over some land which has caused considerable ill-feeling. Vaughan followed some game onto the land in dispute, having a gun in his hand. The Randalls forced him to leave the land, and when on the road, Vaughan laid down the gun and went at the Randalls with his fists and, it is supposed, was getting the better of them, when one of the Randalls seized the gun, which was lying on the ground, and struck Vaughan over the head, knocking him down. He sprang up and rushed at the Randalls with a knife, cutting and slashing gives one of them a wound in the neck, from which he died in a few minutes, and plunging the knife into the body of the other, leaving little hope of his recovery. As soon as possible medical assistance was on the spot, and the wounded man's deposition taken when Vaughan quietly surrendered himself to the authorities. He feels his position keenly, and much sympathy is felt for him. The affair has cast a gloom over the neighborhood, as the parties were well known.

Goodridge—Fraser—That tenders for the supply of coal at the fire hall be called for and be received till 21st inst.

"Two hundred miles north of Calgary there is a place known as Edminton, where almost every train brings people to examine the land. Mr. Fleming had a look around, and declares the locality to be the best for mixed farming he has seen in the whole continent. The soil is exceedingly rich, and the well-timbered country is as beautiful to the eye as it is valuable. Not long ago a vein of anthracite coal—equal to the best English variety—was struck, and found to be fourteen feet thick, and miles in extent. This commodity is delivered to consumers at their homes at 2½ dollars per ton. Within easy distance of this, free grants of land can be had, and any quantity of railway lots can be taken up at three dollars per acre. Moreover, it is believed that the whole district, stretching 100 to 150 miles each way, is equally rich."

A correspondent of the Liverpool Courier, writing from Johannesburg, South Africa, gives a rather discouraging picture of the state of affairs there, and one not likely to assist in the colonization of that country from England.

GENERAL NEWS.

The C. P. R. and the Manitoba Government are actively engaged making arrangements for next year's immigration campaign.

The Liverpool Post of November 25 gives an article on Canada for British farmers, containing the opinions of various British immigration agents, which are all very favorable. Mr. Hutchinson, of Penrith, says:

It is evident that the correspondent in question is one of that class of skilled laborers, who often flock in swarms to a new country, where industrial growth is only in its infancy, and ten unskilled out-door laborers are wanted for every skilled artisan required.

That any man who has made up his mind to emigrate, and is not afraid of hard work and a few discomforts for a few years, especially one whose family is old enough to be of some use upon the farm, would do well to go there. Anyone, however, who goes to Canada with the expectation that, as soon as he sets foot on her soil, he will make his fortune, will be under a great mistake. Above all things, an emigrant to Canada should have good health, and be prepared to do anything that first comes to his hand. He will then in a few years find himself his own landlord and independent.

Mr. John Lee, of Edinburgh, spent some time in the Canadian Northwest this summer on a tour of inquiry, and the following is taken from his report, which he has submitted to the High Commissioner. He gives intending emigrants many valuable suggestions:

"I would advise those in search of land, if possible, to visit the district of country from Red Deer to Edmonton, and the valley of the Saskatchewan. Millions of acres of the finest land are there to be found, suitable for all classes of settlers, either for dairy farming, wheat farming, mixed farming, or stock raising, with a choice of markets either to the east or west, and a better climate than further east, with fewer winter storms."

BOYS.

The boys of this country as a rule are too precocious. They know too much and do too little. They can give you all the latest gossip or talk horse by the hour, and a great many smoke, chew and swear. Mr. Campbell, the new principal of the school, is now teaching the schoolboys to play football in their spare time. This is a very good thing, and it is strange that it was not done before.

Mr. Campbell, we believe, is a very able teacher, being a first-class football man himself. Of course, those who have seen football played know there is a good chance to get in a "big big D" now and again which some way or another will come out, but Mr. Campbell being a player will know when it is necessary.

All school boys ought to have a certain amount of exercise, and the best exercise is in school games such as football, cricket, etc. It strengthens them and gives them pluck; keeps them out of mischief and makes men of them. Besides, when they know the rules of the various games and can play, they will be like other boys and play every opportunity they can, and when they grow up will be able to form clubs and continue sports and not let them fall through as is too common a thing in Edmonton. A gymnasium is being started now, by the young men about town, yet there seems to be a great lack of energy amongst them; perhaps it would be a good thing if boys were allowed to join the club too, at a reduced entrance fee, and in that way show their elders a good example as well as develop their muscle.

Accounts passed: J. Goodridge, \$8; W. S. Roberts, \$6; A. McDonald, \$6; Cartage Co., \$15.75 and the Cartage Co. will be asked to reduce the rent of ground and explain the charges for water.

NETS CONFISCATED.

A very short time ago the nets belonging to Simon Fraser and various other half-breeds, were seized by J. Whitford at Pigeon Lake, and at a time when they were entirely out of food. This was for fishing out of season. Simon Fraser has lived and fished at Pigeon Lake for the last twelve years. He lives almost entirely on fish, and what little money he makes it is by selling fish in the winter, but now that he has been deprived of the wherewithal to make his living, what is he going to do?

It is only recently that game and fishing laws have been in force in this part of the country, so it would be no wonder if many half-breeds knew nothing of those laws. We think it would only be right to warn such people before removing their livelihood.

PATRONS OF INDUSTRY OF NORTH AMERICA, LITTLE MOUNTAIN ASSOCIATION.

EDMONTON, December 16, 1892.

Wm. Craig, Esq.

DEAR FRIEND AND BROTHER-We, the members of this association, do tender you, your brothers and sisters our heartfelt sympathy for your irreparable loss of a good father, in whom we also lost a well beloved friend and brother. In behalf of our lodge I am yours fraternally.

JOHN FIELDERS,
Secretary.

Advice from Arkansas, Indian Territory and Texas report a big drop in the mercury, with severe wind and electric storms, and several funnel shaped cyclones. One at Brenham, Texas, demolished a dozen houses and injured several dozen persons, though none fatally. Denison, Texas, reports several houses blown down, and a bunch of cattle killed by lightning. In Indian Territory many head of cattle, and a stockman named John Wismore, were killed by lightning at Big Prairie. A tornado, 300 yards wide, struck Paragould, Arkansas, and did damage to the extent of \$20,000 to buildings, fences and sidewalks in a twinkling, but fortunately no one was seriously injured. Other points report great damage to timber and fences, but few buildings of importance were injured.

It is learned that Mrs. Maybrick's condition is critical. Last Tuesday her illness was so serious that the governor of the prison telegraphed to the Baroness De Rougemont, Mrs. Maybrick's mother, at Rouen, and she arrived in England recently.

The deer and other game is very plentiful at Red Deer. A few days ago a son of Mr. Hanes shot five out of one herd. A great number have been sent in from the coal fields by some hunters from Dakota, who have camped in that vicinity.
